Welcome to the Kenya Red Cross Training Institute

At the Kenya Red Cross Training Institute (KRCTI), we are proud to be at the forefront of championing emergency medical care training and response. Since our inception in 2010, we have remained committed to bridging the gap in emergency care by providing world-class education to health professionals.

Our focus is to equip individuals with critical life-saving skills, ensuring a stronger and more prepared workforce to tackle emergencies locally, regionally, and internationally. As we honor our past achievements, we are shaping the future with innovation and excellence at the core of our programs.

Whether you're pursuing a career in pre-hospital care, emergency medical services, or occupational health and safety, we welcome you to be part of a diverse and inclusive community that fosters growth and meaningful change.

Together, we will learn the skills to save lives!

Monica Orero

Director/ Principal,

Kenya Red Cross Training Institute

About Us

Founded in 2010, the Kenya Red Cross Training Institute (KRCTI) was established to address the critical need for qualified pre-hospital care professionals. We are a premier institution, registered under the Ministry of Education, offering specialized training in emergency medical services and related health disciplines. Our comprehensive programs include a Diploma in Paramedic Science, Certificate in Emergency Medical Technician, and accredited short medical courses by international organizations such as the American Heart Association, NAEMT, and the American College of Surgeons.

KRCTI is also recognized as a workplace trainer by the Directorate of Occupational Safety and Health Services (DOSHS) and the National Industrial Training Authority (NITA), offering occupational health and safety training. Our mission is to nurture competent professionals through experiential learning, quality research, and innovation, guided by our core values of excellence, inclusivity, innovation, and collaboration.

As a center of excellence, KRCTI is dedicated to training professionals who can lead in emergency response and pre-hospital care, contributing significantly to Universal Health Coverage (UHC) in Kenya and beyond. Our institution not only focuses on theoretical knowledge but also emphasizes practical training through modern infrastructure, including a skills laboratory and a trauma center, ensuring our students are fully prepared for real-world challenges.

Vision

To be a global leader in Pre hospital and Emergency Medical Services Training.

Mission

To nurture professional Emergency Medical Services providers through experiential quality training, research and innovation.

Fire Safety Technical Services

1. Fire Safety Equipment Sale
2. Fire Safety Equipment Installation
3. Fire Safety Equipment Servicing

Extinguishers
Co2, Powder, Foam, Water

Cabinets
Vertical / Horizontal

Fire Hose Reels
Automatic / Manual

Safety & Rescue Tools

Valve & Raiser

Fire Hoses & Accessories

Fire Alarm

Fire Hydrants

Sprinkler system

Fire pump

Fire Suppression System
Co2, FM200, IG100

Water Tank

Occupational Health and Safety Courses

Occupational Health and Safety Committee Course (For Compliance)

Course description:

This course aims to equip participants with knowledge and skills to develop and carry out measures to improve the safety of workers and help develop safety and health standards, rules, and procedures.

Price: 10,000 KES

Duration: 4 Days

Short Medical Courses/ Continuous Professional Development

1. Basic Life Support (BLS)

Course description:

The AHA's BLS course trains participants to promptly recognize several life-threatening emergencies and also emphasizes the importance of giving high-quality chest compressions, delivering appropriate ventilations and also the importance of early use of an AED. Reflects science and education from the American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (ECC).

Who is this course for:

This course is targeted for healthcare professionals and other personnel who need to know how to perform CPR and other basic cardiovascular life support skills in a wide variety of in-facility and pre-hospital settings. BLS is a one (1) day course.

Price: 7,500 KES

Duration: 1 Day

2. Advanced Cardiac Life Support

Course description:

ACLS is an advanced, instructor-led classroom course that highlights the importance of team dynamics and communication, systems of care and immediate post-cardiac-arrest care. It also covers airway management, Basic ECG and related pharmacology.

Price: 18,000 KES

Duration: 2 Days

3. Paediatric Advanced Life Support

Course description:

This Course aims to improve the quality of care provided to seriously ill or injured children, resulting in improved outcomes.

Price: 20,000 KES

Duration: 2 Days

4. Advanced Trauma Care for Nurses

Course description:

Advanced Trauma Care for Nurses (ATCN) is an advanced course designed for the registered nurse interested in increasing his/her knowledge in management of multiple trauma patients.

Price: 390 USD

Duration: 2 Days hybrid /3 Days traditional class

Advanced Trauma Life Support (ATLS)

Course description:

The Advanced Trauma Life Support (ATLS) Student Course presents a concise approach to assessing and managing multiply injured patients. The course presents doctors with knowledge and techniques that are comprehensive and easily adapted to fit their needs. The skills described in the manual represent one safe way to perform each technique, and the American College of Surgeons (ACS) recognizes that there are other acceptable approaches.

Price: 380 USD

Duration: 3 Days

Pre-hospital courses and programs

Ambulance Operator Course

Course description:

This is a unique certificate of merit course that is aimed at rapid skill acquisition of ambulance drivers to safely and effectively manage casualties as well as safely operate emergency vehicles in a pre-hospital set up. The course targets drivers.

Price: 35,000 KES

Duration: 10 Days

First Responder Course

The course targets individuals who are first to arrive at an emergency scene to provide safe, efficient and accurate pre-hospital care to a variety of incidents, which may range from fires, motor vehicle crashes or collapsed buildings.

Price: 20,000 KES

Duration: 5 Days

Pre-Hospital Trauma Life Support

This is recognized around the world as the leading continuing education program of Pre-hospital emergency trauma care. The course targets hospital and pre-hospital healthcare workers.

Price: 35,000 KES

Duration: 3 Days

Diploma in Paramedicine

This competency-based Diploma program, accredited by TVETA and KNQA, is available in full-time, part-time, online, and blended formats, lasting two years for full-time and 30 months (2 and a half years) for other formats. Learners must attend scheduled practical boot camps and follow unit timelines, with additional webinars enhancing competencies. The course uses the KRCTI LMS for resource access, discussions, assignments, test results, and the Jones & Bartlett platform for eBooks, quizzes, simulations, and lectures. It combines theoretical learning with practical sessions and 24 weeks (5 and a half months) of clinical experience in teaching hospitals.

The program employs diverse pedagogical methods, including instructor-led sessions, videos, simulations, and ambulance and hospital practice. Course materials are of international standards, accessible via various formats and a modern ICT-compliant library.

Course Duration: 24 months Full time, 30 months online-blended learning

Cost: 80,000 KES per semester

Intake: January and September, every year

Certificate in Advanced Emergency Medical Technician

This competency-based Certificate in Advanced Emergency Medical Technician (AEMT) training at KRCTI is available for 12 months full-time or 18 months part-time. It features dual training, combining face-to-face instruction and workplace clinical placements. The course uses the KRCTI LMS for resource access, discussions, assignments, test results, and the Jones & Bartlett platform for eBooks, quizzes, simulations, and lectures.

The program also uses a blended learning approach, integrating in-person and online (OdeL) sessions. The curriculum includes 16 basic and core units, all of which must be completed to earn the AEMT qualification. Trainees must maintain at least 90% class attendance and 100% participation in practical sessions, field excursions, and 3-month clinical placements. Practical training covers clinical settings like emergency operations center/ambulance, casualty, obstetrics, critical care, and pediatrics.

Course Duration: 12 months Full time, 18 months part-time

Cost: 115,000 KES

Intake: January, May and September every year

Craft Certificate in Health Care Assistant

This course is designed to equip a learner with competencies and knowledge required to take care of a patient's basic needs, whether in a hospital/nursing home, or in a home setting. The learner is equipped with strong communication skills, compassion, and the patience to address any patient need that comes up. Professional etiquette is instilled in the learner with the view to providing quality, competent and proficient services

Course Duration: 4 months

Cost: 70,000 KES

Intake: January, May & September

Diploma in Disaster Management

The Diploma in Disaster Management is a more in-depth program that delves into advanced concepts and strategies in disaster management. Participants will explore topics such as crisis leadership, resource management, and the socio-economic impacts of disasters. The program emphasizes practical skills, including incident command systems, risk mitigation, and recovery planning.

Duration: 24 Months

Study Mode: Regular - 24 months

: Part Time - 30 months

Cost Regular: 80,000 KES per semester

Part Time: 80,000 KES per semester

Institute of Fire Engineers(IFE) Course

The Institution of Fire Engineers (IFE) is a global professional membership body for those in the fire sector that seek to increase their knowledge, professional recognition and understanding of fire through a global discourse.

The KRCTI is offering certificate in Level 2 in Fire Science, Operations and fire Safety and management. Among other IFE qualifications based on market needs. The content and structure of the IFE qualification has been established to reflect best professional practice and covers key knowledge and understanding in the areas of fire engineering science, fire service operations and fire safety.

Duration: 6 Months

Study Mode: Part Time

Cost: 80,000 KES

Programme Development Courses

Monitoring and Evaluation Courses

Monitoring, Evaluation, Accountability and Learning (MEAL)

This course is designed to equip participants with comprehensive knowledge and practical skills in designing, implementing, and managing effective MEAL systems within development and humanitarian programs. This course targets Program managers, coordinators, and officers in NGOs, Government Agencies, and International Development Organizations, Monitoring and Evaluation (M&E) professionals

Project staff responsible for the implementation and reporting of development and humanitarian programs, Donors, consultants, and independent evaluators, Graduate students or professionals
